

PremiAir

Within the business aviation world, one name speaks of experience and quality more than any other – PremiAir. Established over 25 years ago, we've built an unrivalled understanding of the business. Today we offer the market an outstanding service, exceeding clients' expectations every time.

PremiAir provides a unique offering – a full range of aviation services that spans both executive helicopters and business jets. We've also branched into other complementary areas, such as the London Heliport, which we operate, and Emergency Services Support.

PremiAir – unrivalled experience, exemplary service. We are, in short, experts in flight.

Building a relationship of trust

One word is more important than any other to PremiAir. It's trust. Without it, you wouldn't choose to work with us.

We've worked exceptionally hard to earn that trust, spending the past 25 years establishing a company that's known for its expertise and fastidious attention to detail. We've also built the strongest relationships with suppliers and manufacturers – trusted partners who work with us to ensure a flawless service.

Whether you're entrusting your business jet to us to maintain or manage, or asking us to fly your family or CEO by executive helicopter, you can be assured of a service that will exceed expectations. It's an approach that's been recognised by the industry, with third-party accolades and high-level approvals from a host of companies.

For you, it means one thing – you can trust us implicitly.

Management

When you've invested in an item as precious as an executive helicopter or business jet, you want to ensure that your asset is managed to the highest possible standards. More and more owners are turning to PremiAir for that reassurance.

At the core of our offering is a simple aim – to look after every aspect of your aircraft, leaving you free to concentrate on more important issues. To this end, we take away all the hassle that comes with owning an executive

helicopter or business jet. We look after every maintenance and operational issue and, if requested, can help you maximise your revenue by including your aircraft on our extensive charter fleet.

Naturally, should you require your aircraft, we'll ensure it's where you want it, when you want it.

Keep yourself firmly focussed on your business by putting your aviation asset in our safe hands. We'll look after the rest.

When time and convenience are paramount, there's only one way to travel – by chartering a private aircraft.

Charter

Whether it's a business flight to Moscow, a short hop from the London Heliport to a meeting in Birmingham, or a special occasion with friends at Royal Ascot, PremiAir can ensure you arrive punctually, relaxed and in the most elegant way imaginable.

You'll travel in an aircraft picked from a wide range of executive helicopters and business jets. You'll enjoy a service that's been repeatedly recognised

with prestigious travel awards; a service that's received audited approvals to carry senior directors from some of the biggest organisations in the world; a service that also regularly carries royalty and high-profile celebrities.

Charter with PremiAir, and we'll organise every stage of your journey seamlessly – taking you, quite literally, from door to door. Onboard, our crew are on-hand to attend to your every need. You can relax – or indeed work – secure in the knowledge that you'll arrive in absolute safety, superb style, and on time.

Aircraft Sales

Whether you are buying or selling an aircraft, you need the right advice – from a company that knows the market back-to-front. An independent aircraft sales and brokerage specialist, PremiAir Global focuses on selling and acquiring business aircraft on behalf of our clients. We have a simple aim – to excel through the highest possible levels of service.

If you are a buyer, PremiAir Global can draw on its parent company's expertise to bring tangible benefits, from identifying and sourcing the best aircraft, conducting full aircraft inspections and technical assessments, to assisting with the often complex registration paperwork and aviation-specific legal matters.

If you're a seller, our expert knowledge of the global market will help you achieve the quickest sale at the most attractive price.

Independent and expert, you can trust PremiAir Global.

Maintenance

When you own an asset like a helicopter or jet, you need to know that it's being cared for immaculately – and that it's available, as and when you need it. At PremiAir, we guarantee just that.

With over 25 years' experience, we're regarded as having some of the best engineers in the business – a workforce that's dedicated to maintaining your aircraft to the highest standards. We are also a service centre for several leading aircraft and equipment manufacturers. And thanks to excellent relationships with suppliers and other partners across Europe, the US and Middle East, we also deliver a seamless support network.

Needless to say, PremiAir has all the right qualifications to give you peace of mind. We are fully approved by the world's key regulatory authorities to provide a full scope of maintenance services across a range of business aircraft.

We also have an in-house team of design engineers authorised to develop and install modifications to your aircraft. So whether you require the latest in-flight entertainment system, avionics upgrade or an interior refurbishment, you can rely on us to carry out an exemplary job.

Safe, meticulous, accountable and utterly trustworthy, PremiAir delivers.

London's Vertical Gateway

The London Heliport

London is one of the most vibrant and important cities on earth, not to mention a world financial capital. It's also one of the largest, with a centre notoriously difficult to access quickly and comfortably from its main airports. This can make getting to and from the city a potential headache; but not for those who choose to use the London Heliport. Conveniently located in Battersea, within a short car ride of the centre of the city, the heliport is London's Vertical Gateway, giving people from all over the world quick and simple access to the capital's business community.

Established in 1959, the London Heliport, which is managed and operated by PremiAir, has a long history of providing services to time-pressed individuals. Exciting new facilities (opening late 2009) transform the heliport, providing a new VIP passenger terminal and adjacent 70 room luxury hotel – Hotel Verta. This includes a class of accommodation, dining and spa facilities befitting our clients, as well as fully-equipped meeting and conference rooms for executives in a hurry.

BATTERSEA LONDON HELIPORT

PremiAir has been providing pilots and pilot training services to UK and overseas Police Forces for over 20 years.

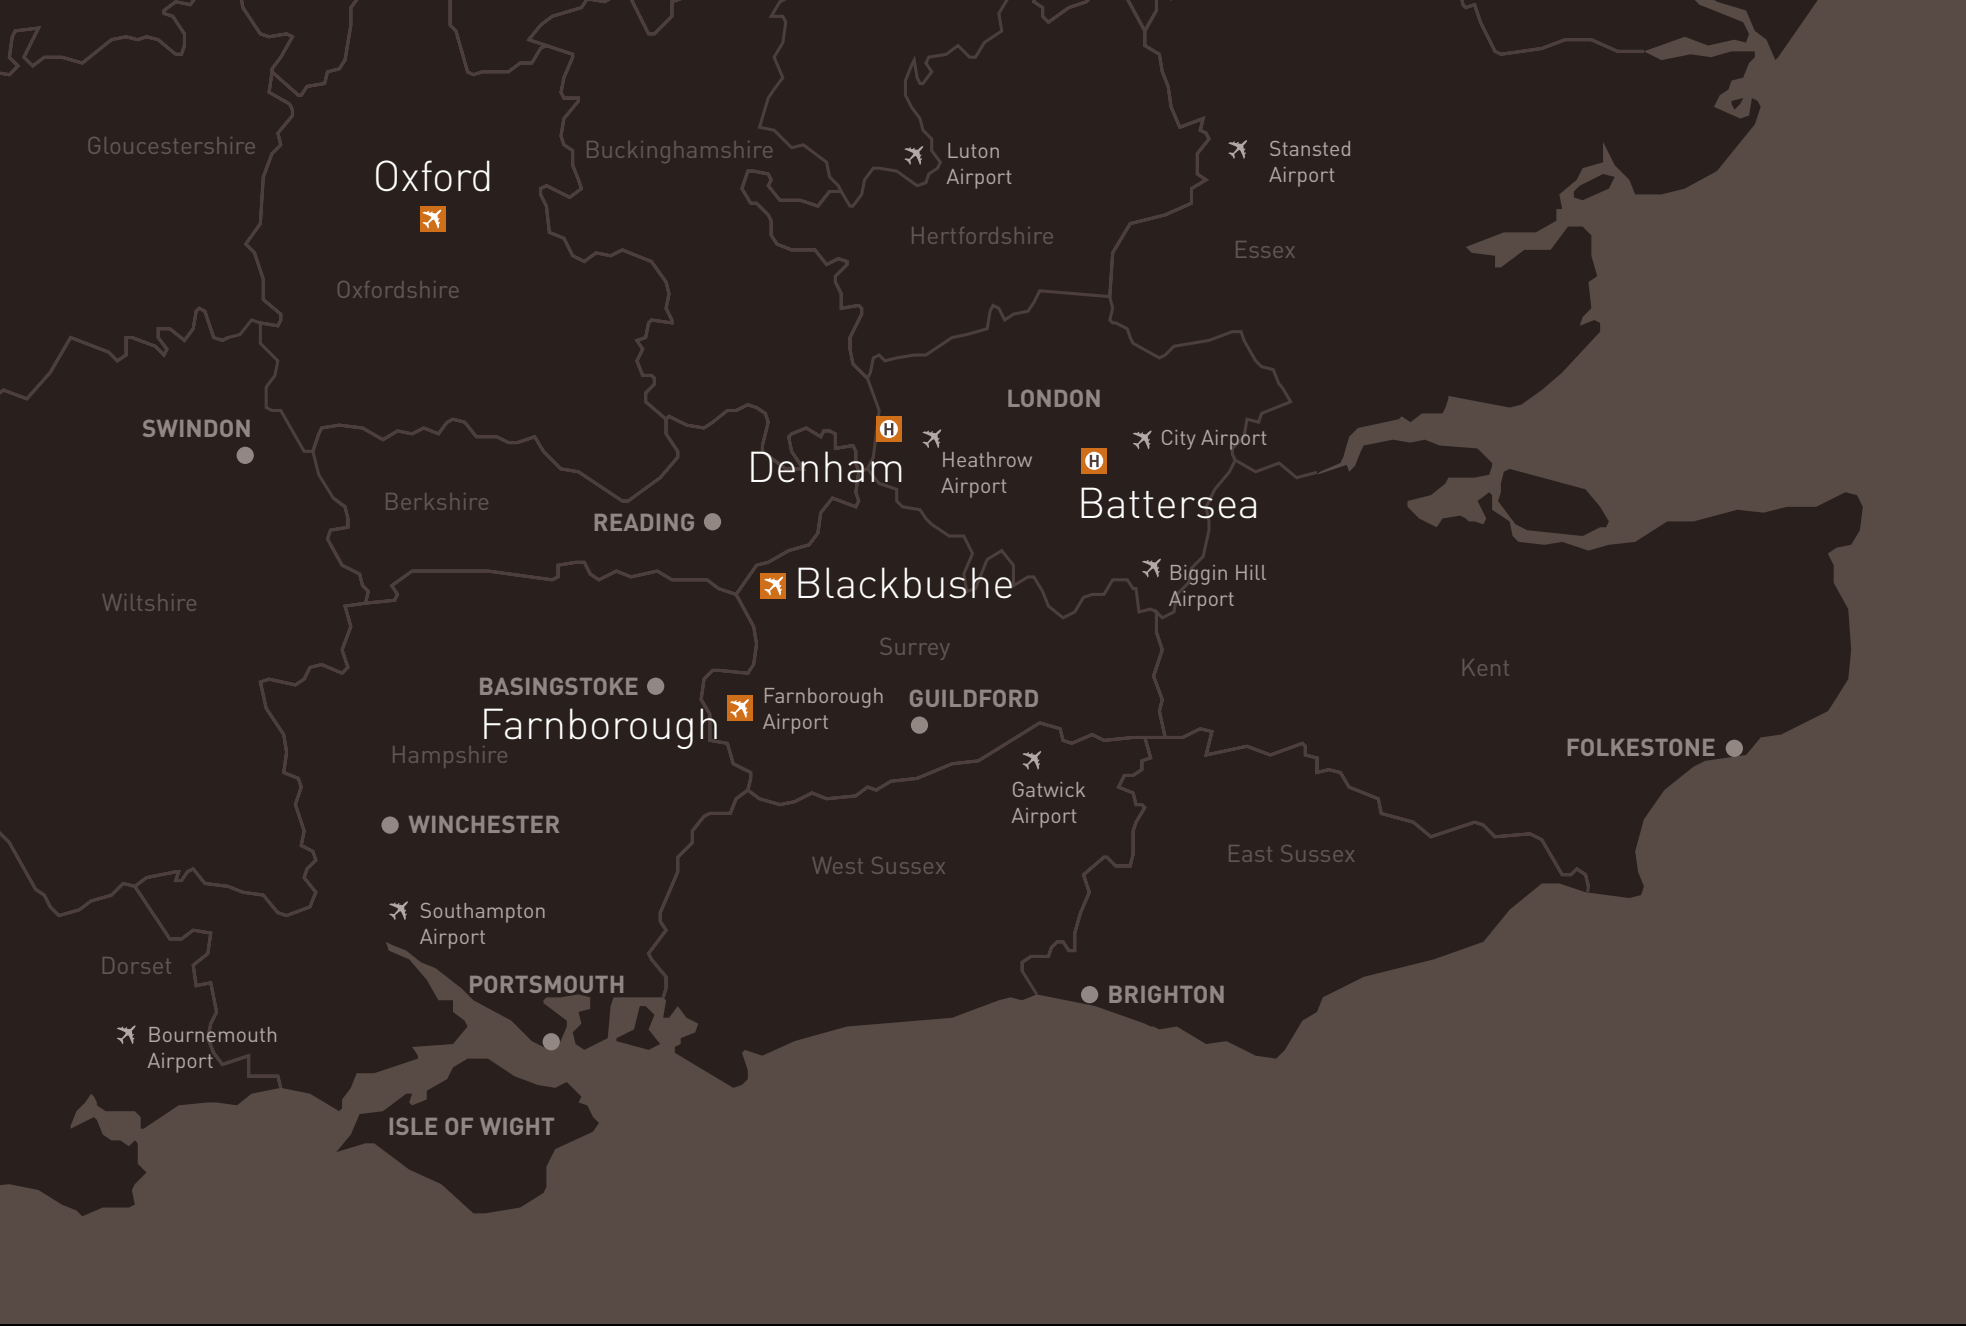

Emergency Services Support

Police Forces and Ambulance Services rely on their vehicles and equipment 100%. Nowhere is this more true than with the helicopters that provide vital air support.

We now support a significant proportion of the UK's Police Air Support Units, providing essential law enforcement and safety to communities across the nation. We are recognised as a global leader in police air support operations and training.

We also continue to maintain an important role in keeping The London Air Ambulance flying each day. The London Air Ambulance provides vital response capability to seriously injured people around the London area each year, and saves hundreds of lives as a result. PremiAir and the London Heliport provide a variety of support services to the London Air Ambulance and are proud to be involved in this very worthy charity.
